**This is child's abstract journey.**

### Review:

*"Mary Leonard's, 'The Little Princess' is a glorious expression of the heart of God beautifully communicated in this little girl's journey. The dreams of children and adults alike will be stirred as each page bursts into a kaleidoscope of color igniting and inspiring the reader...I believe Psalm 45 captures the very essence of this work...truly, this 'Little Princess' is all glorious within!" Betty Love, Love Ministries, Inc., Laurel, Mississippi.*

### God's Little Princess Book Review

*"Mary has a deep love for the Lord; a deep love for painting; and a gift for storytelling through her art. Painting for her is a spiritual experience which is evidenced by her use of light, color, lines and shapes. I would describe her unique style of art as meditation made visual. It is a wonderful book to help teach and converse with your children and grandchildren. Mary Leonard uses the star in a unique way which allows the viewer to become the actor or the observer through choice of perspective, either the inside of the star or the star itself. It is also a great way for the abstract thought of the spiritual to be an interactive journey through each painting. Enjoy it. I did." Barbara Couse Wilson, Artist*

# God's Little Princess

[www.2Mea.com](http://www.2Mea.com)

This is a fictional story about a princess. She is in your heart and your imagination.

I am finding through the comments from readers that the book "God's Little Princess" challenges the parent to find their firm ground on good and evil and life's mountains before they can even start the conversation.

They need first to see the many ways they themselves are abstract already.

The paintings are from God's perspective and the pointer star is the path and in removed center is the moment.

This book can be used over and over to explore God in your family's life.

## Mary Leonard Biography

Mary's style is unusually simple and profoundly complex abstracts of the unknown yet known.

United States Artist Mary Leonard is grateful for her deeper growth through Mariahsachin Spirit painting. With a renewed sense of Spirit awareness through chaos to organization.

She is using the foundation she built over fifty years of painting to become absorption into a Spirit dance of gratitude see in her paintings.

Mary recently painted and wrote a book "God's Little Princess."

By Mary Leonard

My book is a different format.

It is so out of the box. I am beginning the adventure of a tutorial in videos to show readers how to read it.

You only need to read one page a day. Explore the painting each day as you read. It is in script so the child can't read it with you.

It is a conversation and reflection tool. To help parent and their children communicate on difficult issues of spirituality.

I have found the First Nation Peoples, Buddhist, x-Christians, the Jew and the God disillusioned all add a different flavor to the conversation. The format is for that kind of spice.
